Technical information

Research & Development Corner

Get a brilliant clean with the trusted power of Fairy

A combination of high alkalinity and choice surfactants powers through tough deposits.

High alkalinity formula hydrates soils allowing efficient penetration by surfactants which lift them away. These residues are suspended in the wash water and prevented from re-depositing on cutlery, plates and glasses.

Technical Description

- **EAN code:**
- **Appearance:** Liquid
- **Smell:** Odorless
- **PH (10%):** 13
- **Density:** 1267 g/l
- **Water solubility:** High

Safety Instructions

Please make sure your employees read and understood the product label and your COSHH assessment (Chemical Risk Assessment in EU) before using this product. The label contains directions for use and both label and SDS contain hazard warnings, precautionary statements, first aid procedures and storage information. SDS are available on-line at our website www.pgpro-msds.com or can be provided to you via the call center.

Storage Instructions

Store in cool, dry area in original canister. Avoid extreme temperatures.

Where to Use

- For use in all water hardness.
- Suitable for use in a wide range of professional single (dishwasher and glasswasher) and multi tank ware washing machines.
- Under recommended conditions suitable for use on most materials commonly encountered in professional kitchens.

Where Not to Use

- Not for use on alkaline sensitive items such as copper, brass, aluminum or rubber.
