

Room Care R8

Kettle descaler

Introduction to Room Care

Room Care is the unique globally available all encompassing solution for your guest room maintenance including chemicals, tools and methods to cover any room cleaning needs, adapted to any hotel size and housekeeping structure.

Superior formulation adapted to deal effectively and safe with all the cleaning and disinfections requirements of housekeeping, easy to recognise product names as well as colour coding throughout the system, a set of dedicated tools, accessories and machines make Room Care the perfect choice.

The Room Care range is the solution of choice when combining performance, safety for the user and environmental responsibility. All our Room Care formulations are compliant with the strictest regulations, in particular with the upcoming REACH European directive.

Diversey Care's expertise, environmental commitment, and certification against ISO 9001, ISO 14001 and the AISE Charter for Sustainable Cleaning provide further guarantee of quality and efficacy.

Product description

Room Care R8 is a highly effective acid based descaler for kettles, kitchen equipment, shower heads etc.

Key properties

- Effectively removes limescale without the need for scrubbing

Benefits

- Safe for use on plastic kettles

Room Care R8

Use instructions

Dosage

See product label or Mini Guide for specific equipment dosage

Application

Pour required amount of product into the kettle. Add cold water to maximum line. Leave overnight. Rinse thoroughly with fresh cold water. Boil water once and pour away before using again.

For more detailed application, please refer to Room Care R8 Mini Guide.

Important: Do not use on stainless steel. Do not use on acidsensitive surfaces, e.g. enamel, marble. Immediately remove any drops or splashes from acid-sensitive surfaces and rinse thoroughly with water. Do not mix with bleach or other cleaning products. Test material compatibility in a small, inconspicuous place before use.

Technical data

Appearance	clear yellow liquid	pH-value	< 2 (neat)
Relative density (20°C)	1.10 g/cm ³		

The above data is typical of normal production and should not be taken as a specification.
