

Horizon Light, Bright & Deosoft

Diversey low temperature wash programs

The modern on premise laundry faces many challenges, from increasing utility costs, to increased hygiene requirements. It must operate efficiently and safely at all times. This is why Diversey has developed the next generation of laundry technology: The Horizon Light & Bright System.

The department of Health recognises thermal disinfection as an effective way of disinfecting fabrics in the laundry process. Horizon Light & Bright has been specifically designed to address this issue, delivering exceptional cleaning and disinfection at low temperatures. Harmful bacteria such as MRSA and the notoriously persistent Clostridium Difficile spore can be effectively destroyed.

Used at 40°C, can save up to 35% electricity, 25% on water, 10% on labour and even 20% on re-wash costs. Horizon Light & Bright is also gentle on fabrics and helps prolong their life and maintain their strength.

Horizon Bright Code 40179

Horizon Bright gives the system its exceptional destaining and decontaminating properties. Based on novel technology this destainer removes even stubborn stains.

- ▶ Low temperature destainer
- ▶ Can be used to kill Clostridium Difficile spores at 60°C and MRSA at 40°C in the wash
- ▶ Average dose is 4ml/kg
- ▶ Pack size: 10 litres

Horizon Light Code 5570

Horizon Light is a non-corrosive detergent for use on all fabrics. It is suitable for use on microfibre and can be used on its own or as part of an autodosed laundry system.

- ▶ Fully built enzymatic detergent
- ▶ Average dose is 10ml/kg
- ▶ Pack size: 10 litres

Horizon Deosoft Breeze Code 5571

Horizon Deosoft Breeze is a concentrated fabric softener suitable for most fabrics. It contains odour neutralising technology to eliminate residual odours which may linger after laundering.

- ▶ Not to be used on microfibre
- ▶ Average dose is 5ml/kg
- ▶ Pack size: 10 litres

Free on loan dosing equipment

▶ **Engineering support will provide a prompt response in the event of an equipment break down**

Automatic Dosing Equipment

- ▶ Compatibility with all major manufacturers
- ▶ No clogging and mess means operators are not exposed to the neat product
- ▶ Accurate dispensing ensures consistent wash performance and cost
- ▶ Includes easy-to-use handset to control all settings
- ▶ Flexible programming options
- ▶ Access menu - prime and wash count
- ▶ Robust, durable pump housing and pump tubes
- ▶ Free installation and training
- ▶ Easy to service and maintain
