

# TASKI® Sani Cid conc

Washroom cleaner for hard water – concentrate

## Description

A citric acid based daily washroom cleaner for all acid resistant surfaces in hard water areas.

## Key properties

- TASKI Sani Cid conc is mildly acidic and hinders limescale build up
- TASKI Sani Cid conc contains a fresh long lasting fragrance
- TASKI Sani Cid conc is part of the unique EXACT dosing and packaging concept for accurate dosage and cost control.

## Benefits

- Effective cleaning and descaling properties in hard water areas
- Suitable for use on intact chrome and stainless steel fixtures
- Leaves a pleasant scent
- Dosing head for accurate dosage and cost control

## Use instructions

### Dosage

**Minimum dosage:** 2 caps for 10L solution (0.2%). Increase dosage for heavy scale/soiling.

**Spray cleaning method:** 1 cap into foam trigger spray bottle filled with 500ml water (2.0%)

### Application

#### Spray method:

1. Dose the product into the full spray bottle with foam trigger, spray the solution on a damp cloth and wipe.
2. Rinse or replace the cloth regularly, use a sponge pad to remove stubborn soil.

#### Bucket method:

1. Dose the product into the full water bucket, apply the solution with a cloth/sponge and wipe.
2. Use a sponge pad to remove stubborn soil.

#### Wet mopping:

1. Dose the product into the full water bucket.
2. Apply the solution with a mop and remove the soiled solution.

**Important:** Do not use on acid-sensitive surfaces, e.g. marble, terrazzo, travertine and other calcareous surfaces. Test material compatibility in a small, inconspicuous place before use.

Washroom cleaner for hard water – concentrate

## Technical data

Appearance	Clear, red liquid
Relative density (g/ml at 20°C)	1.14
pH-value neat	2.5-3.0
pH-value solution (1%)	3.7 +/- 0.5 at 0.2% dilution

The above data is typical of normal production and should not be taken as a specification.

## Safe handling and storage information

**Safe handling:** Rinse and dry hands after use. For prolonged contact, protection for the skin may be necessary. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet. For professional users/specialists only.

**Storage information:** Store in original closed containers away from extremes of temperature.

## Product compatibility

Do not use on acid-sensitive surfaces, e.g. marble, terrazzo, travertine and other calcareous surfaces.

## Environmental information

The surfactants used in this product are biodegradable in compliance with the requirement of EC Directives 73/404/EEC and 73/405/EEC and their subsequent amendments.
