

Suma[®] Lima

Liquid mechanical ware washing detergent for medium hard water

Description

Suma Lima L3 is a highly alkaline mechanical ware washing detergent specially formulated to provide excellent soil removal in medium hard and hard water conditions.

Key properties

Suma Lima L3 is a highly alkaline, chlorinated liquid detergent which is suitable for use in a wide range of single and multi-tank ware washing machines. It contains caustic alkali and chlorine bleach, which will provide excellent removal of fats, dried-on foods and stains. A special blend of scale inhibitors and sequestrants makes this product suitable for medium hard and hard water conditions.

Benefits

- · Quickly removes grease and dried-on -foods
- Highly concentrated formulation gives economy in use
- Effective removal of tannin stains
- Prevents scaling of itmens and machine parts in medium water conditions.

Use instructions

Suma Lima L3 is normally applied using Diversey Care automatic dispensing equipment and is suitable for use in a wide range of single and multi-tank ware washing machines. To ensure perfect cleaning results, dose at a minimum recommended dosing of 0.4 ml/l*. At a concentration of 4 ml/l the product can be used for water containing up to 350-400 ppm CaCO₃, 19.7°dH, 35°fH. Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures). Before first use rinse pump and transport tubes of the dosing system to avoid product crystallization caused by mixing with previously used products.

Technical data

Appearance clear liquid pH (1% solution) 13.0
Relative density (20°C) 1.26

These figures are typical values and should not be interpreted as specifications.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet. Store in original container. Avoid extremes of temperature and exposure to sunlight.

Product compatibility

Under recommended conditions of use, Suma Lima L3 is suitable for use on most materials commonly encountered in the kitchen. However, do not use on alkali sensitive items such as copper, brass, aluminium or rubber.

*This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey Care representative for directions.
