

# Safety Data Sheet

According to Regulation (EC) No 1907/2006

## **TASKI Sprint Spitfire Plus**

Revision: 2024-08-03

Version: 01.2

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Trade name: TASKI Sprint Spitfire Plus

UFI: KQYG-D1MJ-C00K-5JKE

1.2 Relevant identified uses of the substance or mixture and uses advised against Product use: Hard surface cleaner.

Uses advised against:

Hard surface cleaner. For professional use only. Uses other than those identified are not recommended.

SWED - Sector-specific worker exposure description : AISE\_SWED\_PW\_11\_1 AISE\_SWED\_PW\_19\_1

#### 1.3 Details of the supplier of the safety data sheet

Diversey Europe Operations BV, De Corridor 4, 3621ZB Breukelen [Maarssenbroeksedijk 2, 3542DN Utrecht], The Netherlands

#### Contact details

Diversey Ltd Weston Favell Centre, Northampton NN3 8PD, United Kingdom Tel: 01604 405311, Fax: 01604 406809 Regulatory Email: customerservice.uk@solenis.com

#### 1.4 Emergency telephone number

Seek medical advice (show the label or safety data sheet where possible) For medical or environmental emergency only: call 0800 052 0185

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Eye irritation, Category 2 (H319)

2.2 Label elements

Signal word: Warning.

Hazard statements: H319 - Causes serious eye irritation.

#### **2.3 Other hazards** No other hazards known.

## SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures

| Ingredient(s)   | EC number | CAS number | REACH  | Classification  | Notes | Weight  |
|-----------------|-----------|------------|--------|---|-------|---------|
|                 |           |            | number |   |       | percent |
| 2-butoxyethanol | 203-905-0 | 111-76-2   | 8-36   | Acute toxicity - Inhalation, Category 3 (H331)<br>Acute toxicity - Oral, Category 4 (H302)<br>Skin irritation, Category 2 (H315)<br>Eye irritation, Category 2 (H319) |       | 3-10    |

| sodium carbonate              | 207-838-8 | 497-19-8   |      | Acute toxicity - Oral, Category 4 (H302)    | 1-3 |
|-------------------------------|-----------|------------|------|---|-----|
|                               |           |            | 8-19 | Eye irritation, Category 2 (H319)           |     |
| sodium alkylbenzenesulphonate | 290-656-6 | 90194-45-9 | [1]  | Acute toxicity - Oral, Category 4 (H302)    | 1-3 |
|                               |           |            |      | Skin irritation, Category 2 (H315)          |     |
|                               |           |            |      | Serious eye damage, Category 1 (H318)       |     |
|                               |           |            |      | Chronic aquatic toxicity, Category 3 (H412) |     |

Workplace exposure limit(s), if available, are listed in subsection 8.1.

ATE, if available, are listed in section 11.

[1] Exempted: ionic mixture. See Regulation (EC) No 1907/2006, Annex V, paragraph 3 and 4. This salt is potentially present, based on calculation, and included for classification and labelling purposes only. Each starting material of the ionic mixture is registered, as required. [4] Exempted: polymer. See Article 2(9) of Regulation (EC) No 1907/2006.

For the full text of the H and EUH phrases mentioned in this Section, see Section 16..

## SECTION 4: First aid measures

| 4.1 Description of first aid measures |   |
|---------------------------------------|---|
| Inhalation:                           | Get medical attention or advice if you feel unwell.   |
| Skin contact:                         | Wash skin with plenty of lukewarm, gently flowing water. If skin irritation occurs: Get medical advice or attention.  |
| Eye contact:                          | Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Rinse<br>cautiously with water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If irritation occurs and persists, get medical attention. |
| Ingestion:                            | Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Get medical attention or advice if you feel unwell.   |
| Self-protection of first aider:       | Consider personal protective equipment as indicated in subsection 8.2.  |
| 4.2 Most important symptoms and ef    | fects, both acute and delayed   |
| Inhalation:                           | No known effects or symptoms in normal use.   |
| Skin contact:                         | No known effects or symptoms in normal use.   |

symp Eye contact: Causes severe irritation. Ingestion: No known effects or symptoms in normal use.

4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

## SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

#### 5.2 Special hazards arising from the substance or mixture

No special hazards known.

#### 5.3 Advice for firefighters

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

#### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Wear eye/face protection.

#### 6.2 Environmental precautions

Dilute with plenty of water. Do not allow to enter drainage system, surface or ground water.

#### 6.3 Methods and material for containment and cleaning up

Dyke to collect large liquid spills. Absorb with liquid-binding material (sand, diatomite, universal binders). Do not place spilled materials back into the original container. Collect in closed and suitable containers for disposal.

#### 6.4 Reference to other sections

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

## SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Measures to prevent fire and explosions:

No special precautions required.

Measures required to protect the environment:

For environmental exposure controls see subsection 8.2.

Advices on general occupational hygiene:

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with

Sewage treatment plant (mg/l) 463

#### **TASKI Sprint Spitfire Plus**

other products unless adviced by Diversey. Wash hands before breaks and at the end of workday. Avoid contact with eyes. Do not breathe spray. Use only with adequate ventilation. See chapter 8.2, Exposure controls / Personal protection.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local and national regulations. Store in a closed container. Keep only in original packaging. For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

#### 7.3 Specific end use(s)

No specific advice for end use available.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters Workplace exposure limits

Air limit values, if available:

| Ingredient(s)   | UK - Long term<br>value(s)      | UK - Short term<br>value(s) |
|-----------------|---------------------------------|-----------------------------|
| 2-butoxyethanol | 25 ppm<br>123 mg/m <sup>3</sup> | 50 ppm<br>246 mg/m³         |

Biological limit values, if available:

#### Recommended monitoring procedures, if available:

Additional exposure limits under the conditions of use, if available:

## **DNEL/DMEL** and **PNEC** values

## Human exposure

DNEL/DMEL oral exposure - Consumer (mg/kg bw)

| Ingredient(s)                 | Short term - Local<br>effects | Short term - Systemic<br>effects | Long term - Local<br>effects | Long term - Systemic<br>effects |
|-------------------------------|-------------------------------|----------------------------------|------------------------------|---------------------------------|
| 2-butoxyethanol               | -                             | 26.7                             | -                            | 6.3                             |
| sodium carbonate              | -                             | -                                | -                            | -                               |
| sodium alkylbenzenesulphonate | -                             | -                                | -                            | 0.425                           |

| 2-butoxyethanol               | 8.8                  | 0.88                  | 9.1                 |   |

| sodium carbonate              | - | - | - | - |
|-------------------------------|---|---|---|---|
| sodium alkylbenzenesulphonate | - | - | - | - |

Environmental exposure - PNEC, continued

| Ingredient(s)                 | Sediment, freshwater<br>(mg/kg) | Sediment, marine<br>(mg/kg) | Soil (mg/kg) | Air (mg/m³) |
|-------------------------------|---------------------------------|-----------------------------|--------------|-------------|
| 2-butoxyethanol               | 34.6                            | 3.46                        | 2.33         | -           |
| sodium carbonate              | -                               | -                           | -            | -           |
| sodium alkylbenzenesulphonate | -                               | -                           | -            | -           |

#### 8.2 Exposure controls

The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.

Recommended safety measures for handling the <u>undiluted</u> product:

Appropriate engineering controls: Provide a good standard of general ventilation. Avoid direct contact and/or splashes where possible. Train personnel. Users are advised to Appropriate organisational controls: consider national Occupational Exposure Limits or other equivalent values, if available.

#### **REACH use scenarios considered for the undiluted product:**

|                           | SWED - Sector-specific | LCS | PROC    | Duration | ERC   |
|---------------------------|------------------------|-----|---------|----------|-------|
|                           | worker exposure        |     |         | (min)    |       |
|                           | description            |     |         |          |       |
| Trigger spray application | AISE_SWED_PW_11_1      | PW  | PROC 11 | 60       | ERC8a |
| Manual application        | AISE_SWED_PW_19_1      | PW  | PROC 19 | 480      | ERC8a |

## Personal protective equipment

| Eye / face protection:           | Safety glasses are not normally required. However, their use is recommended in those cases where splashes may occur when handling the product (EN 16321 / EN 166).   |
|----------------------------------|--|
| Hand protection:                 | No special requirements under normal use conditions.   |
| Body protection:                 | No special requirements under normal use conditions.   |
| Respiratory protection:          | Respiratory protection is not normally required. However, inhalation of vapour, spray, gas or aerosols should be avoided. Trigger spray bottle application: No special requirements under normal use conditions. Apply technical measures to comply with the occupational exposure limits, if available. |
| Environmental exposure controls: | No special requirements under normal use conditions.   |

Environmental exposure controls:

## **SECTION 9: Physical and chemical properties**

9.1 Information on basic physical and chemical properties Information in this section refers to the product, unless it is specifically stated that substance data is listed

Physical state: Liquid Colour: Clear , Blue Odour: Product specific Odour threshold: Not applicable Melting point/freezing point (°C): Not determined Initial boiling point and boiling range (°C): Not determined

Not relevant to classification of this product See substance data

Substance data, boiling point

| Ingredient(s)                 | Value             | Method           | Atmospheric pressure |
|-------------------------------|-------------------|------------------|----------------------|
|                               | (°C)              |                  | (hPa)                |
| 2-butoxyethanol               | 168-172           | Method not given | 1013                 |

| sodium alkylbenzenesulphonate | No data available |                  |                     |

Relative density: ≈ 1.03 (20 °C) Relative vapour density: -. Particle characteristics: No data available.

# 9.2 Other information 9.2.1 Information with regard to physical hazard classes Explosive properties: Not explosive. Oxidising properties: Not oxidising. Corrosion to metals: Not corrosive

9.2.2 Other safety characteristics Alkali reserve: ≈ 0.7 (g NaOH / 100g; pH=10)

## **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Stable under normal storage and use conditions.

#### 10.3 Possibility of hazardous reactions

No hazardous reactions known under normal storage and use conditions.

#### 10.4 Conditions to avoid

None known under normal storage and use conditions.

#### 10.5 Incompatible materials

None known under normal use conditions.

#### **10.6 Hazardous decomposition products**

None known under normal storage and use conditions.

## **SECTION 11: Toxicological information**

## 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Mixture data: .

| sodium<br>alkylbenzenesulphonat |  | No data<br>available |  |  |  |
| е                               |  |                      |  |  |  |

STOT-single exposure

| Ingredient(s)                 | Affected organ(s) |
|-------------------------------|-------------------|
| 2-butoxyethanol               | No data available |
| sodium carbonate              | Not applicable    |
| sodium alkylbenzenesulphonate | No data available |

#### STOT-repeated exposure

| Ingredient(s)                 | Affected organ(s) |
|-------------------------------|-------------------|
| 2-butoxyethanol               | No data available |
| sodium carbonate              | Not applicable    |
| sodium alkylbenzenesulphonate | No data available |

## Aspiration hazard

Substances with an aspiration hazard (H304), if any, are listed in section 3.

## Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

#### 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

Endocrine disrupting properties - Human data, if available:

#### 11.2.2 Other information

No other relevant information available.

## SECTION 12: Ecological information

#### 12.1 Toxicity

No data is available on the mixture .

Substance data, where relevant and available, are listed below:

## Aquatic short-term toxicity

| Ingredient(s)                 | Endpoint | Value<br>(mg/l) | Species                | Method             | Exposure<br>time (h) |
|-------------------------------|----------|-----------------|------------------------|--------------------|----------------------|

|------------------|------|-------------------|--------|------------|--------|
| sodium carbonate |      | No data available |        |            |        |

## Biodegradation

| Ingredient(s)                 | Inoculum                    | Analytical<br>method       | DT 50                  | Method    | Evaluation                           |
|-------------------------------|-----------------------------|----------------------------|------------------------|-----------|--------------------------------------|
| 2-butoxyethanol               |                             | CO <sub>2</sub> production | 90.4 % in 28<br>day(s) | OECD 301B | Readily biodegradable                |
| sodium carbonate              |                             |                            |                        |           | Not applicable (inorganic substance) |
| sodium alkylbenzenesulphonate | Activated sludge,<br>aerobe | CO <sub>2</sub> production | 85% in 29 day(s)       | OECD 301B | Readily biodegradable                |

#### Ready biodegradability - anaerobic and marine conditions, if available:

| Ingredient(s)    | Medium & Type | Analytical<br>method | DT 50 | Method | Evaluation        |
|------------------|---------------|----------------------|-------|--------|-------------------|
| sodium carbonate |               |                      |       |        | No data available |

#### Degradation in relevant environmental compartments, if available:

| Ingredient(s)    | Medium & Type | Analytical<br>method | DT 50 | Method | Evaluation        |
|------------------|---------------|----------------------|-------|--------|-------------------|
| sodium carbonate |               |                      |       |        | No data available |

#### **12.3 Bioaccumulative potential** Partition coefficient n-octanol/water (log Kow)

| Ingredient(s)                 | Value             | Method   | Evaluation                        | Remark |
|-------------------------------|-------------------|----------|-----------------------------------|--------|
| 2-butoxyethanol               | 0.81              | OECD 107 | Low potential for bioaccumulation |        |
| sodium carbonate              | No data available |          | No bioaccumulation expected       |        |
| sodium alkylbenzenesulphonate | No data available |          |                                   |        |

#### Bioconcentration factor (BCF)

| Ingredient(s)                        | Value             | Species | Method | Evaluation                  | Remark |
|--------------------------------------|-------------------|---------|--------|-----------------------------|--------|
| 2-butoxyethanol                      | No data available |         |        |                             |        |
| sodium carbonate                     | No data available |         |        | No bioaccumulation expected |        |
| sodium<br>alkylbenzenesulphonat<br>e | No data available |         |        |                             |        |

#### 12.4 Mobility in soil

Adsorption/Desorption to soil or sediment

| Ingredient(s)                 | Adsorption<br>coefficient<br>Log Koc | Desorption<br>coefficient<br>Log Koc(des) | Method | Soil/sediment<br>type | Evaluation                                       |
|-------------------------------|--------------------------------------|---|--------|-----------------------|--|
| 2-butoxyethanol               | No data available                    |   |        |                       | Potential for mobility in soil, soluble in water |
| sodium carbonate              | No data available                    |   |        |                       | Potential for mobility in soil, soluble in water |
| sodium alkylbenzenesulphonate | No data available                    |   |        |                       |  |

#### 12.5 Results of PBT and vPvB assessment

Substances that fulfill the criteria for PBT/vPvB, if any, are listed in section 3.

#### 12.6 Endocrine disrupting properties

Endocrine disrupting properties - Environmental effects, if available:

## 12.7 Other adverse effects

No other adverse effects known.

#### SECTION 13: Disposal considerations

#### 13.1 Waste treatment methods Waste from residues / unused products:

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation. 20 01 29\* - detergents containing dangerous substances.

**European Waste Catalogue:** 

**Empty packaging Recommendation:** Suitable cleaning agents:

Dispose of observing national or local regulations. Water, if necessary with cleaning agent.

#### SECTION 14: Transport information

Land transport (ADR/RID), Sea transport (IMDG), Air transport (ICAO-TI / IATA-DGR)

- 14.1 UN number or ID number: Non-dangerous goods
- 14.2 UN proper shipping name: Non-dangerous goods
- 14.3 Transport hazard class(es): Non-dangerous goods
- 14.4 Packing group: Non-dangerous goods
- 14.5 Environmental hazards: Non-dangerous goods
- 14.6 Special precautions for user: Non-dangerous goods

14.7 Maritime transport in bulk according to IMO instruments: Non-dangerous goods

## **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### National regulations :

- Regulation (EC) 1907/2006 REACH (UK amended)
   Regulation (EC) 1272/2008 CLP (UK amended)
- Regulation (EC) 648/2004 Detergents regulation (UK amended)
- Delegated Regulation (EU) 2017/2100 and Regulation (EU) 2018/605 (UK amended)
- · Agreement concerning the International Carriage of Dangerous Goods by Road (ADR)

• International Maritime Dangerous Goods (IMDG) Code

#### Authorisations or restrictions (Regulation (EC) No 1907/2006, Title VII respectively Title VIII): Not applicable.

#### Ingredients according to Detergents Regulation

anionic surfactants, non-ionic surfactants perfumes

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) 648/2004 on detergents (UK amended). Data to support this assertion are held at the disposal of the competent authorities of the UK and will be made available to them, at their direct request or at the request of a detergent manufacturer.

Comah - classification: Not classified

#### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out on the mixture

## SECTION 16: Other information

The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract

< 5 %

#### Reason for revision:

This data sheet contains changes from the previous version in section(s):, Overall design adjusted in accordance with Amendment 2020/878, Annex II of Regulation (EC) No 1907/2006, 6, 8, 11, 16

#### **Classification procedure**

The classification of the mixture is in general based on calculation methods using substance data, as required by Regulation (EC) No 1272/2008. If for certain classifications data on the mixture is available or for example bridging principles or weight of evidence can be used for classification, this will be indicated in the relevant sections of the Safety Data Sheet. See section 9 for physical chemical properties, section 11 for toxicological information and section 12 for ecological information.

#### Abbreviations and acronyms:

- AISE The international Association for Soaps, Detergents and Maintenance Products
- ATE Acute Toxicity Estimate
- DNEL Derived No Effect Limit
- EC50 effective concentration, 50%
- ERC Environmental release categories EUH CLP Specific hazard statement LC50 Lethal Concentration, 50% / Median Lethal Concentration
- LCS Life cycle stage
   LD50 Lethal Dose, 50% / Median Lethal dose
- NOAEL No observed adverse effect level
- NOEL No observed effect level
- OECD Organisation for Economic Cooperation and Development
- PBT Persistent, Bioaccumulative and Toxic PNEC Predicted No Effect Concentration
- PROC Process categories
   REACH number REACH registration number, without supplier specific part
- vPvB very Persistent and very Bioaccumulative
- H302 Harmful if swallowed.
- H315 Causes skin irritation.H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
  H331 Toxic if inhaled.
- H332 Harmful if inhaled.
- H412 Harmful to aquatic life with long lasting effects.
