

Good Sense BreakDown

Bacteria fortified odour eliminator

Description

Good Sense BreakDown is a highly effective odour eliminator for use in urinals, toilets, floor drains, garbage areas, carpets and grouted washroom tiles. Good Sense BreakDown has been specially developed to solve day to day odour problems with ease. Formulated with natural bacterial cultures, odour counteractants and with a pleasant fresh fragrance

Key properties

- Natural bacterial cultures remove odours at source
- Long lasting pleasant fragrance
- Odour Neutralising Technology
- Versatile application

Benefits

- Non classified and neutral product to remove odours at source
- Leaves the area with a fresh long lasting odour
- Suitable for a wide variety of areas including washrooms, drains, bins and carpets

Use instructions

Minimum dosage:	1.5% or 1:64
Washroom cleaning application:	1:10 to 1:20
Carpet application:	1:10 to 1:50
Plumbing pipes and grease traps:	Use neat

Washroom cleaning

Drains/urinals: For difficult areas where odour is an issue pour neat product down the urinal or drain, allow contact time. For waterless urinals use at 1:10 dilution, spray onto surface or apply using cloth and allow contact time, brush and the rinse off.

Hard floors: Dilute at 1:20 in a bucket, apply with mop, cloth or sponge and allow 5 minutes contact time. Scrub with machine or deck brush and pick up solution, damp mop with clean water.

Carpets: Always test for colour fastness before use.

Spot and stain removal: Dilute 1:10 in a trigger bottle, spray onto stain, blot area to remove stain, rinse with water, blot and allow to dry. For difficult stains use neat, cover with a clean white towel or cloth and leave for as long as possible ideally overnight. Then blot and rinse with water, blot and allow to dry.

Extraction cleaning: Ensure carpet is vacuumed and any stains treated prior to extraction cleaning. Dilute at 1:10 in a garden sprayer or trigger spray, pre-spray the carpet and allow 5 minutes contact time. Make up a solution in the extraction machine at 1:50 dilution, clean the carpet as per usual extraction cleaning techniques Allow to dry.

Bins/garbage disposal areas: Dilute product 1:10 in a bucket and apply product with cloth or mop, allow contact time and scrub with brush or cloth.

Plumbing pipes: Pour product undiluted into pipes twice weekly when drain flow is lowest.

Grease traps: Pour product undiluted daily into drain depending on build up.
