

Trusted. Simple. Effective.

Flash C2 Concentrated Disinfecting Multi-Surface + Glass Cleaner

Cleaning and disinfection of washable interior surfaces including mirrors/glass

Highly concentrated cleaner, for use with wall-mounted dispensing equipment of the Flash Professional Cleaning System.

Use Flash Professional C2

...for outstanding business results

Trusted

- From the well-known brand Flash.
- Delivering value and results that are trusted by professionals and their guests.

Simple

- Effectively complete 3 tasks with one bottle: Multi-Surface cleaning, Glass cleaning, Disinfection.
- Easy to learn and use via colour coding, numbering and language-free icons.

Effective

- Removes greasy streaks and finger marks fast.
- Leaves a brilliant shine also on mirrors and other glass surfaces.
- Leaves a pleasant scent.
- Disinfects according to European norms EN1276 & EN13697 (3 minutes contact time).
- No need to rinse. Ammonia free.

★★★★★ Satisfy your guests

Cleanliness can help you improve your ratings & reviews and generate incremental business.

Minimize your total operating cost

The Flash Professional System helps create outstanding results fast. Accurate dosing every time with wall-mounted dispensers helps control cost in use.

Contribute to a more sustainable development

Refillable spray bottles are provided, which can reduce packaging waste versus ready-to-use products. The 2L canisters are made from recyclable material.

Care for your staff

The Flash Professional System is designed to be easy to learn. Colour code, numbering and language-free icons make it easy to use.

every experience counts.™

Technical information

Research & Development Corner

Effectively completes 3 tasks with one bottle

- Powerful formulation with just the right mix of solvents, surfactants and disinfectants
- This is how the product can do the job of an effective multi-surface cleaner, a disinfectant, and be also effective on mirrors/glass surfaces

Technical Description

- **EAN code:**
- **Appearance:** Liquid
- **Smell:** Pleasant (perfume)
- **pH (neat):** 10.65
- **Density:** 1008 g/l
- **Water solubility:** High

Safety Instructions

Please make sure your employees read and understood the product label and your COSHH assessment (Chemical Risk Assessment in EU) before using this product. The label contains directions for use and both label and SDS contain hazard warnings, precautionary statements, first aid procedures and storage information. SDS are available on-line at our website www.pgpro-msds.com or can be provided to you via the call center.

Usage & Dosing Instructions

For professional use only. Dose only through the P&G Professional wall mounted dispensing system

- **For spray use:** 66 ml/L (6.6%). Rinse surface after application. Tilt the spray bottle opening towards the wall to avoid foaming and splashes in the eye when filling.
- **General cleaning:** spray on the surface, buff with a dry cloth until no streaks/marks.
- Heavy soil and Disinfection: spray on the surface, leave to act for 3 minutes before wiping.
- **Glass and mirrors:** Spray lightly, wipe with a dry clean cloth. Buff with a dry cloth until no streaks/marks.

Do not expose to direct sun light. Dispose of any remaining product before filling the spray bottle anew. Do not use undiluted or with other dilution methods.

Biocidal Information

- Bactericidal according to EN1276 and EN13697 (at 6.66%/3min contact time).
- Yesticidal according to EN1650 and EN13697 (at 6.66%/15 min contact time).
- Proven efficacy against following bacteria and viruses:
 - According to EN1276 and EN13697 (5min contact time, 6.6%):
 - Staphylococcus Aureus MRSA, Salmonella Typhimurium.
 - According to EN1276 (5min contact time, 6.6%), Listeria Monocytogenes, E. coli.
 - According to EN14476 (15min contact time, 6.6%): H1N1

Where to Use

- Safe to use for cleaning and disinfecting most washable interior surfaces, including glass and mirrors.
- Suitable for cleaning and disinfection of high-contact areas such as tables, desk chairs, telephones, remote controls and door handles.

Where Not to Use

- Some types of aluminum could be damaged. On aluminum and waxed or painted surfaces, test product first on a small inconspicuous area before use.
- Not suitable for food and feed areas.
- For large scale glass cleaning use P&G Professional #11 ready to use Glass Cleaner.
